Dear Parents,

Following instructions provided by the Department of Educations, we are reviewing our procedures for the administration of medication to students during school hours. If your child requires medication to be taken during school hours, please complete the form below. Medication and form must be handed in by an adult. Please note that if medication is provided for more than one day, a dosette box (those little containers with separate compartments available from the chemist for around \$20) is the preferred container as it has provision for correct labelling. Further forms are available from the office.

Please also complete this form if your child has an Asthma pack at school as we are required to have an updated Request to Administer Medication During School Hours each year. Please also ensure you have provided us with an School Asthma Action Plan (form can be provided to you at the school office).

Thankyou for your assistance with this matter to enhance the safety of your child and others in the school.

Wendy Bradley
Principal.
